The Cabinetworks

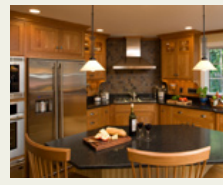

OFFERING BEAUTIFUL KITCHEN AND BATH DESIGNS YOU WILL LOVE

The Cabinetworks is a designer-owned kitchen-and-bath design and cabinetry showroom. Located in the Windy Knoll Village in Stratham The Cabinetworks has been in operation since 1991, designing kitchens and baths all over New England. Specializing in design, Anita Colby (a certified master kitchen and bath designer) listens to her clients needs and wants, and can transform an ordinary space into an extraordinary one.

The latest trend in the kitchen and bath business for The Cabinetworks has been rearranging a home's existing floor plan to accommodate the kitchen or bath of the client's dreams. Instead of building or buying a new home, many clients have chosen to stay where they are and create a new space from within. Anita manages and oversees each job to completion.
